Introduction

- This document describes the procedure and precautions for upgrading the CD/ USB receiver firmware.
- If an error occurs while you are updating the firmware, the CD/USB receiver may become unusable. Be sure to read the following procedure and precautions carefully before updating the firmware.
- For basic operations of the CD/USB receiver, refer to the appropriate instruction manual for your model.

Target Model and Firmware Version

The updater can be used for the firmware versions of the models shown below.

Target models	Target firmware versions → Updated versions
KD-X561DBT, KD-X560BT	Ver 190907*** or earlier → MPG: 1911250001 MCU: 1907290007 Bluetooth: 1905110005

Work Flow

a	
Step 1	Download the firmware files, and copy them to USB memory

- **Step 2** Update the firmware. (It takes about 9 minutes.)
- Reset the unit.
- Step 3 Check that the firmware has been updated.

Creating the Update Media

Create the update media on your PC.

- 1. Download the Updates from the Web site.
- 2. Decompress the downloaded file.
- 3. Copy the decompressed file to the top of hierarchy in USB memory.

Caution

 For updating, use a USB memory device with the specifications shown below. Updating is not possible on USB memory devices with other specifications.
USB Standard: USB 2.0
Capacity: 8 GB to 32 GB
File system: FAT 32
